Typical Physical Properties	The following technical information and data should be considered representative or typically only and should not be used for						
rioperues	specifications purposes.						
	Property Thickness					2.060	mm
	Tensile strenght N/25mm					>30	
	Elongation at break					<200	
	Adhesion on steel N/25mm					2.5	
	Max Operating Temperature						°C
						00	C
Features	-Adhesive		Ven/ eas	w application: does no	nt require any additional tan	orstr	in
	-Adhesive Very easy application: does not require any additional tape or strip Removes easily and cleanly				P		
				o adhesive residue			
				e level ensures high se	ocurity fiving		
				-			
	-Carrier Clean and aesthetic protection -Carrier The foam polyethylene ensures a very high leel of protection against sc				inst scratches and		
	currer				es a very high leer of protection	onaga	inst sciatches and
	any damages -Polyethylene reinforcement Provides high flexibility and high conformability even on difficult surfaces						
			High bon	id between film and fo	oam allows high tensile stren	ght an	d easy removability
Applications	 High performance protection on glass, varnished wood, plastic, ceramics. Main application fields are forniture industry, ship builiding, glass industry. 						
Storage	Store under normal conditions	of 60° to 80°	°F (16° to 2	7°C) and 40 to 60% RH	l in the original packaging.
